HOW TO USE INDEX

In the master index on the next two pages, articles are listed alphabetically by title and are numbered consecutively. The cross-index by author or subject on this page refers to the number of the article in the master index.

Example: Bargaining, 4

No. 4 in the master index will give the title, page and month for an article on the subject of collective bargaining. Thus No. 4 on the master index shows "Bargaining '78: The Vital Issues," page 12, March.
